

The LDV **D90** SUV

GET OUT THERE
BRING THE CREW

The LDV D90 is a family-size SUV that makes your day to day more comfortable and lets you access adventure. Style. Safety. Performance. Technology. Now you can get behind the wheel of a premium vehicle without paying a premium price.

Here's a true seven-seater with the latest technology standard in every model. Choose from petrol and diesel engines, 2WD or 4WD and two trim levels for even more control over how you move about the country.

Looking for a roomy SUV that makes busy school runs easier and more comfortable? After a rugged off-roader that can handle family adventures? An LDV D90 gives you the flexibility of having both.

D90 PETROL

**BUILT FOR THE EVERYDAY
AND THE GETAWAY**

With the power of an LDV D90 at your fingertips, it's never been so easy to get around every day, and get away from it all.

The 160kW/350Nm turbo-charged petrol engine and a six-speed automatic gearbox with three driving modes – Auto, Sport and Eco – give you the power to tackle everything from hilly motorways to stop-and-go weekend traffic. It's perfect for driving the kids to footy training – or just hitting the road and heading up the coast.

Best of all, the end of the road doesn't mean the end of your road. You can opt for a robust four-wheel-drive system that keeps you ready for anything with four more driving modes – Mud, Sand, Snow and Rock. Even with all this power, the LDV D90 comes with excellent fuel economy thanks to the automatic engine stop/start.

From day to day to getaway, the LDV D90 has you covered.

D90 DIESEL

MORE POWER
MORE PERFORMANCE

When you choose an LDV D90 with an in-house designed 2.0-litre Bi-Turbo diesel engine, you're ready to break through the boundaries of everyday driving. This 158kW/480Nm powerhouse opens up new options for off-road exploration, with one of the highest outputs in its class.

The LDV D90 diesel's 3,100kg towing capacity will handle your load, giving you the strength to haul pop-up campers, quad bikes and boats and trailers behind you with ease.

A sturdy ladder chassis helps you harness all this power, offering more rigidity and strength than the monocoque chassis found in similar models. So don't worry if the best route takes you off the beaten track.

With plenty of power and no nonsense low down grunt, the LDV D90 Diesel is here to handle the highways or the tough stuff.

GET MORE OUT OF YOUR TRIP BY PACKING IT ALL IN

With one of the largest interiors in its class, the LDV D90 is built with room and comfort for you and all your passengers. It's a true 7-seater with plenty of space for seven adult passengers.

There's plenty of room for storage, too. There's 343 litres at your disposal in the back with all the seats up. Folding down one row unlocks 1,350 litres of storage, while folding all the rear seats down gives you a whopping 2,382 litres to load up.

With all this room, you can pack the camping gear, the sports equipment and the esky – and everything else you need for a great day wherever life takes you. And it's just as easy to load and unload the groceries and the pram when you're running weekend errands – especially with the electric tailgate on Executive models.

Skip making the tough calls about who and what stays and goes. Just chuck it all in, and hit the road.

**BIG, BOLD AND
BEAUTIFUL**

With its superior size and stylish looks, the LDV D90 is hard to miss.

Ride atop impressive 18" alloy wheels that come standard, or 19" on Executive models. Durable roof rails make carrying extra cargo look good. Same goes for the sturdy side steps that help everyone get on board safely. Inside you'll find luxuries like a large 12 inch touch screen. Executive models also come with a leather steering wheel and leather trim first and second row seats and a sunroof that lets you enjoy a fresh breeze and the best of the great outdoors.

One of the biggest SUVs in its class and full of features, this is one vehicle that certainly stands out from the crowd.

- Paddle shifts for gears

COMFORT TO MATCH

The LDV D90 delivers all the smart features you'd expect from an SUV in today's digital world.

A sharp 12" touchscreen system takes centre stage – a dashboard display that keeps you connected. Smartphone connectivity, including Apple CarPlay® and Bluetooth, provides hands-free calling, messaging, navigation and music control. With three USB ports, everyone on board can be fully charged up and ready for anything. And thanks to keyless entry and a push button start system you'll be on the road faster.

In Executive models, multi-zone climate control keeps all your passengers happy and comfortable. And the electric tailgate makes loading and unloading even easier.

SERIOUS ABOUT SAFETY

When it comes to safety, the D90 has it covered with a 5-star ANCAP Safety Rating awarded in 2017. The SUV's suite of driver-assist tech can help you stay safe wherever you are, from busy car parks to long stretches of highway. Blind spot monitors* give you increased peace of mind when changing lanes, while traffic sign recognition brings key road signs to your dashboard display. Lane departure warnings* let you know if you're veering off course, while adaptive cruise control helps keep you within legal limits. There's even autonomous emergency braking, so your D90 will apply the brakes if the car in front of you suddenly slows down.

Reversing cameras and front and rear parking sensors help you parallel park and get in and out of tight garage spaces at home.

It's safe to say the LDV D90 was built with safety in mind.

* Safety technologies may not operate optimally under all driving conditions, operation and effectiveness depends on many factors. Driver is responsible for safe and attentive driving. Safety technologies are not a substitute for the the driver's control over the vehicle. See owner's manual for complete details.
