CF RANGE

THE ULTIMATE ALL ROUNDER

COMFORT + STYLE = THE SMART CHOICE

DO THE MATH. BUY A DAF.

daf.com.au

DAF

A **PACCAR** COMPANY

More pluses:

Multiple systems to keep drivers safe and efficient

- + The CF range features a choice of optional driver assistance systems to improve driving performance and safety. These include: Adaptive Cruise Control (ACC), Forward Collision Warning (FCW), Lane Departure Warning System (LDWS) and our DAF side view camera system.

Aerodynamics to help fuel efficiency, engine performance and visibility

- + The striking clean CF range cabs are not only attractive, but designed to slip through the air with minimum resistance.
- + They channel cold air to the engine for improved volumetric efficiency and direct airflow to help keep the windscreen and side windows clean.

A flat chassis to reduce your body building costs

- + With a flat chassis, pre-drilled anchor points and key components located inside the rails, the CF chassis will make your body builder's job easier, and cheaper for you.

Transmission options for perfect partnership with the PACCAR engines

- + Manual, automated or fully automatic there is always a gearbox option to suit your usage and engine.
- + AS-Tronic gearboxes come as standard with manual as an option.

THE CF RANGE DO THE MATH.

With outstanding comfort, low tare and the fuel efficiency and power of the PACCAR engine range, the DAF CF range redefines versatility. The range includes two, three and four axle configurations, single or tandem drive and specialist applications like concrete pumpers, tippers and tankers. While the exterior dimensions of the CF cabs give it excellent manoeuvrability in tight situations, its interior provides a driver environment like no other. We can confidently say, you'll understand the difference when you drive one.

Here's just some of the ways the CF range adds up:

A chassis, driveline and engine block designed for lower tare

At DAF low tare comes with high strength.

- + Advanced chassis design, the use of High Strength Low Alloy – Vanadium (HSLA – V) steel and in the driveline by low weight differentials.
- + In the engine. This is delivered by making the block from compacted graphite iron, which is stronger and lighter than conventional cast iron.

The level of comfort that DAF is known for

When you drive a DAF you will feel the difference straight away.

- + Adjustable air seat and steering wheel.
- + Comfortable ride and handling.
- + Quiet inside the cab.

The PACCAR MX-13 engine. Power, fuel efficiency and low running costs

- + Compact design and advanced materials ensure a low weight and maximum durability.
- + With up to 510Hp (375kw) and 2,500Nm of torque available from 1,000rpm the MX-13 delivers an effortless, stress-free driving experience your drivers will love.
- + An advanced fuel management system, so the engine gets the exact amount of fuel it needs and ultra-high injection pressures of up to 2,500Nm to increase atomisation of fuel for more efficient combustion.
- + Compact Graphite Iron construction for durability.

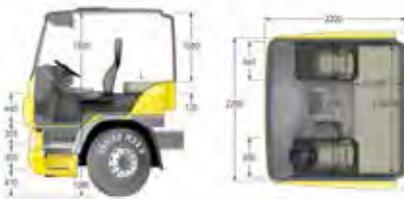

THE CF RANGE SPECS

VEHICLE	ENGINE	PERFORMANCE	TORQUE	EMISSIONS LEVEL
CF85	PACCAR MX 12.9 litre engine	265 kW / 360 Hp at 1500-1900 rpm	1775 Nm at 1000-1410 rpm	Euro 5
		300 kW / 410 Hp at 1500-1900 rpm	2000 Nm at 1000-1410 rpm	Euro 5
		340 kW / 460 Hp at 1500-1900 rpm	2300 Nm at 1000-1410 rpm	Euro 5
		375 kW / 510 Hp at 1500-1900 rpm	2500 Nm at 1000-1410 rpm	Euro 5
CF75	PACCAR PR 9.2 litre engine	183 kW / 249 Hp at 2200 rpm	1050 Nm at 1100-1700 rpm	Euro 5
		228 kW / 310 Hp at 2200 rpm	1275 Nm at 1100-1700 rpm	Euro 5
		265 kW / 360 Hp at 2200 rpm	1450 Nm at 1100-1700 rpm	Euro 5

DAF SERVICES

Global leadership, local know how

PACCAR Inc. is a Six Sigma company and is global technology leader in the design, manufacture and customer support of high-quality light, medium and heavy duty trucks under the DAF, Kenworth and Peterbilt brands. PACCAR also designs and manufactures advanced diesel engines, provides financial services and information technology and distributes truck parts related to its principal business.

Premium rental and leasing solutions

PacLease offers short and long-term rental and leasing solutions with exceptional service, experienced technicians and local franchise support that can help manage your fleet operations. PacLease delivers premium, medium and heavy duty DAF rental trucks to help you to manage peak, short term, cyclical or seasoned demand, and lower your operating costs with customised services to suit your operation.

Committed to DAF parts support

PACCAR Parts offers an extensive range of DAF parts and accessories for all your truck servicing needs. The national distribution centre at Bayswater is one of the most modern and efficient in Australia and utilises advanced RF technology in supplying the dealer network. With more than 20,000 square metres dedicated to DAF, we have the parts you need, when you need them.

Tailor made financial services

The right financing can be as important to your success as the right truck and PACCAR Financial is dedicated solely to the trucking industry. With more than 35 years experience in the Australian transport industry they understand today's business and continue to support with innovative loan and lease options. Talk to PACCAR Financial about a financial solution to meet your needs.

DAF dealer network across Australia

Wherever you are you can count on the DAF dealer network to provide you with excellent parts, service and repairs for all DAF trucks and applications. With more than 40 dealerships across Australia, we offer a wide range of services, from truck cleaning to total overhauls and have the specialist skills and experience to answer any of your requirements.
