

All You Can Expect From A Nissan Car Service

Squeaky brakes? Wipers not reaching that one specific spot on the windscreen? Oil light been on for a while? Ringwood Nissan has all your service needs covered. Our technicians are fully trained and qualified, and our workshop has the most up-to-date equipment available and is specifically designed to support the Nissan Maintenance Program.

[While we're taking care of your car](#), we'll also be taking care of you - you can relax in our lounge area, enjoy our tea and coffee facilities and plasma TV, or make use of our computer workstations so your productivity isn't disrupted. Alternatively, let our courtesy transportation service take you where you need to go.

The Nissan service experience is underpinned by two philosophies; the Nissan Dealer Service Philosophy and the Nissan Customer Promise. These are backed up by the quality and design of our parts and accessories.

The Nissan Dealer Service Philosophy

The Nissan Dealer Service Philosophy consists of five ideals we strive every day to uphold:

- Guaranteeing the quality of our workmanship and fitting only genuine Nissan parts.
- Ensuring that all of our technicians are trained to meet Nissan's high standards.
- Ensuring competitive pricing and strict adherence to factory maintenance schedules.
- Delivering consistent and superior standards of service.
- Better understanding your needs so that we can exceed your expectations.

The Nissan Customer Promise

- Price Guarantee - there's nothing worse than an unpleasant surprise in your bill. That's why we'll *always* tell you, before the service, exactly how much you'll be charged. If extra work is required, your approval will be sought before it's started.
- Complimentary Clean - after the service your car will be thoroughly washed and vacuumed.
- Latest Diagnostic Equipment - Nissan uses the latest diagnostic technology, which has been specifically designed to suit your vehicle and is backed by the Nissan Global Technical Support Team.
- Nissan Genuine Parts - Our parts are designed, tested, and manufactured to the highest standards, and we're so confident in them that they come with a 12-month or 20,000km (whichever comes first) guarantee.

Parts and Parcel

A service at Ringwood Nissan means your car will be fitted with only Nissan Genuine Parts - that's not just solid parts like brakes and wipers but also fluids like oil and coolant.

What's Lube Got To Do With It?

Every Nissan is unique and has different oil requirements. We use the right lubricants and oils to improve engine cleanliness, reduce sludge buildup and oil thickening, improve fuel economy, reduce oil consumption, and help your vehicle withstand heavy loads and hot conditions.

Keep Cool

Nissan Genuine Super Long Life Coolant is designed specifically for your engine. Its unique formula helps to maintain the correct heat transfer rate, stops corrosion, and prevents the water in your radiator from freezing. It also lasts twice as long as regular coolant, so you don't have to worry about frequent changes.

All Thriller, Some Filter

Nissan Genuine Oil Filters work in sync with your engine, helping to remove impurities and prevent oil leakage. This ensures engine reliability and slows down general wear and tear.

Wipers, Not a Wipeout

Nissan Genuine Wipers are made for your vehicle and will keep your windscreen clear in all conditions. They were specifically designed to handle Australia's extreme conditions, so they'll power through no matter where you are.

Give Your Car A Brake

Your brakes could be the only thing between you and an accident, so it's critical to keep them in perfect working condition. Nissan Genuine Brake Parts have undergone thousands of hours of rigorous testing to ensure they meet the highest standards of performance and safety.

What can you expect from a Nissan Car Service? You'll be enjoying the benefits of the Nissan Dealer Service Philosophy, you'll be looked after by the Nissan Customer Promise, and your car will receive the best care and Nissan Genuine Parts possible.

So if your engine light is on, check that it's still there and then [check your car in for a service](#) at Ringwood Nissan. We'll look after it.
